Studies

IBM Cybersecurity Analyst
Assessment

Sep 2, 2021

GONZALEZ CHARLES DEREK

has successfully completed the online, non-credit Professional
Certificate

IBM Cybersecurity Analyst

In this Professional Certificate, learners developed and honed essential knowledge and skills to enter today's dynamic cybersecurity workforce. Learners developed knowledge of cybersecurity analyst tools including data protection; endpoint protection; SIEM; and systems and network fundamentals; acquired knowledge around key compliance and threat intelligence topics important in today's cybersecurity landscape; gained skills for incident responses and forensics. The learner's knowledge and skills were tested through multiple assessments throughout the courses, a real-world breach case study and several hands on virtual labs. The learner also achieved a passing score on a final assessment course covering all content from the previous seven courses.

Caren Kephart

Program Manager, IBM
Security Learning
Services

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.

Cybersecurity Capstone:
Breach Response Case
Studies

Oct 13, 2021

GONZALEZ CHARLES DEREK

has successfully completed the online, non-credit Specialization

Security Analyst Fundamentals

With this specialization, the learner acquired knowledge of forensic tools, incident response planning and penetration testing. The learner also gained knowledge of threat intelligence, multiple network defensive tactics, application security, data loss protection, endpoint protection and SIEM tools. The learner's knowledge was tested through multiple assessments throughout the courses. The learner applied skills to complete several virtual labs and to investigate a real-world security breach identifying the attack, vulnerabilities, costs and prevention recommendations.

Coreen Ryskamp

Coreen Ryskamp
Program Manager
IBM Security Learning
Services

Oct 13, 2021

GONZALEZ CHARLES DEREK

has successfully completed the online, non-credit Specialization

IT Fundamentals for Cybersecurity

This specialization provided the learner with knowledge of cybersecurity concepts, tools and processes; compliance frameworks; system administration, operating system and database vulnerabilities basics; types of cyber attacks; and basic networking. The learner also gained knowledge around important cybersecurity topics such as cryptography and digital forensics. The learner's knowledge was tested through multiple assessments throughout the courses within this specialization.

Coreen Ryskamp
